**Golf Croquet – Introductory Hoop Tactics**

There are five different shots:-

- **Approach** – Get your ball into a hoop running position
- **Block** – Put your ball in the way of your opponent’s next ball (much harder than it sounds)
- **Clear** – Remove your opponent’s next ball from a hoop running position (even a slight knock can put the ball out)
- **Hoop Shot** – Run your ball through the hoop (a firm shot makes sure you clear the hoop)
- **Promote** – Push your partner ball into a hoop running position
